Trinity River - Flood	Currently evaluating the situation. Because the flooding continues are more rain and water travel from upstream (DFW area for one) the flooding is expected to continue for several more days. Once the river is back below flood stage and a few days pass for the ground to dry out further assessment is possible and deployment of teams may then be necessary.	6/1/2015	6/1/2015 ongoing	tbd	tbd	tbd	
Houston - Flood	We had around 25 volunteers go out to neighborhood sites for work today. We sent five teams of 4 to 6 ppl each to four sites from our location. Of those four sites, we got our ig 10 person project finished today, along with one other site. The other two sites preformed a good 3 to 4 hours work of progress on projects that turned out to need more work than we could tell.	6/7/2015	6/7/2015	6/7/2015	25	4	100

Houston - Flood	<p>Joanne Smith, Mark Brown, West District Logistics Officer Glen Grant, and Rick Carpenter (all of First UMC Huntsville) made a one-day ERT trip to the Meyerland area of Houston on June 10. Our first work assignment was not ready for us so we returned to the VRC and received four more work orders and information sheets. The first client was not home but had contractors onsite. We gave the information sheet to the contractors. We were able to give out the information sheet to the second client in the orders, we did nothing at her house as she had contractors onsite. We reached the third clients as they were preparing to go to work. They had had two contractors work for them and were pleased with their work. They allowed us to work until they had to leave. We finished removing the last of the wood flooring, gave them the information sheet, and encouraged them to visit the Multi Agency Resource Center at Westbury UMC. We were called back to the VRC and received our last client work order. We were joined by a Houston-area volunteer and removed drywall and insulation to 48" in one room, removed old exterior siding that was currently on an interior wall, and removed</p>	6/10/2015	6/10/2015	6/10/2015	4	10	40

Houston - Flood	Shifting efforts to include not only the Meyerland area but also Northeast Houston where needs haven't been addressed much at all. (Lack of press coverage didn't help bring attention to the area.) Also, now working with Bellaire to address unmet needs there. Carol is leading efforts to close out all open cases and has worked 672 cases to date with 172 still open of which 30 are outside Meyerland area. There are now fewer than 1000 cases that haven't been assessed for specific needs and assigned or closed as met and that information not recorded. Memorial Drive is sending a team to help with assessments in Bellaire.	ongoing	ongoing	ongoing	tbd	tbd	tbd
